

# Thermo Recorder TR7A series

## TR71A

Temperature 2ch  
Compliant with VFC Guidelines

## TR72A

Temperature 1ch  
Humidity 1ch

## TR72A-S

Temperature 1ch  
Humidity 1ch  
High-Precision type

## For Easy Worldwide Access and Notification

Our new TR7A includes multi-communication methods and auto-upload of data to the cloud function plus a new array of features and functions.

### Two Tier Display Plus Warning Notification

View Measurements of Two Channels  
View Upper and Lower Limit Alarms

### MAX / MIN Display

Automatic clearing at regular intervals,  
so you can see the max/min values for each day.

### Large Storage Capacity 30,000 readings per channel

Can store up to 3.5 years of data in the device

### Improved Storage Performance

Even if battery power is completely gone,  
no recorded data will be lost.

### Improved Security

Network communication with server via HTTPS  
Planned WPA2-EAP support for Wireless LAN

### For Vaccine Temperature Management

[Vaccine Mode] settings for VFC  
compatible model TR71A

- \*1: When Auto Upload is used frequently, the measurement of the internal sensor may rise by around 0.3°C. When using external power, the data logger itself generates heat and the internal sensor will report a temperature much higher than ambient; we recommend using an external temperature sensor in this case.  
 \*2: When continually used in environments with temperatures above 60 °C, accuracy of humidity measurements will decrease over time. Also, humidity cannot be measured at temperatures below -20 °C.  
 \*3: Client function. HTTP(S) proxy supported.  
 \*4: When using external power, the internal temperature of the logger rises.  
 \*5: Battery life is highly dependant on the Auto-upload interval; at 1 min will give 10 days of usage, and at 12 hours or more will yield the maximum lifetime. Other influential factors include LAN environment, ambient temperature, recording interval, and battery performance. All estimates are based on operations carried out with a new battery and are in no way a guarantee of actual battery life.  
 \*6: Shows the estimated battery life with Bluetooth ON. It will be 1.2 times longer with Bluetooth OFF.  
 \*7: Shows the estimated battery life with Auto-Upload ON.  
 \*8: For installation, it is necessary to have Administrator (Computer Administrator) rights.  
 The specifications listed above are subject to change without notice.
