	Denotes an action that should be carried out.

▲ DANGER

To Prevent Serious Accidents

This product has been designed for private and/or industrial use only. It should not be used in situations where strict safety precautions are necessary such as with medical equipment, or in systems directly or indirectly connected with human life or well-being.

Do not disassemble, repair or modify the unit and accessories.

If the unit produces heat, emits smoke or a strange smell, or makes unusual noise, immediately unplug the AC adaptor, remove the batteries, and stop using it. Also, unplug the unit from the PC.

Do not use the unit in any environment that is exposed to chemicals and harmful gases. Doing so may cause corrosion and/ or other danger to the unit. Also, coming in contact with hazardous substances may cause bodily harm to the user or people nearby.

To prevent damage to the unit from static electricity, remove static electricity from your body by touching metal around you (such as a door knob and window frame) before touching the unit.

Do not use any power, battery, sensor, or cable other than those specified by T&D Corporation.

This product is not water resistant. Only use in an environment where there is no condensation or possibility of becoming wet. If liquid enters the product, immediately remove the battery and stop using it.

Do not handle the unit, remove the battery or unplug the AC adaptor with wet hands.

Place and store the unit and accessories out of the reach of children.

▲ DANGER For Prevention of Serious Accidents with Batteries

Improper handling of batteries may cause leakage, overheating, fire or explosion, resulting in a serious accident or malfunction of the product.

- Never touch a leaking battery with bare hands. If it gets on your eyes, skin, or clothing, wash thoroughly with tap water. If it gets into your eyes, seek medical attention immediately.
- When installing batteries make sure that plus and minus are correct and do not short-circuit the terminals.
- · When not using the product for long periods, make sure to remove the batteries.
- When resuming use of the product or changing the battery, make sure to use the correct type and size of battery.
- Ensure that the batteries are within their recommended expiration date.
- Do not mix used and unused batteries.
- · Do not use leaking batteries.
- \cdot The supplied battery is non-rechargeable. Do not attempt to recharge it.
- · Never disassemble, modify, crush, or cut a battery.
- · Do not peel off or damage the battery label.
- Do not use the unit with batteries installed in or near fire, or place it into heating cookers or high-pressure containers. Serious danger may result from the accidental heating of batteries.
- Do not use or store the unit with batteries installed in environments with extremely high temperatures, and/or high and low pressure.
- Please regularly check and replace any batteries installed as backup for an external power supply. Aging batteries may corrode and/or leak.
- Do not use counterfeit or imitation batteries.
- Dispose of used batteries in accordance with local regulations.

A CAUTION Do not place or store in the following areas:

- · Areas exposed to direct sunlight
- · Areas exposed to strong magnetic fields
- Areas exposed to water leakage
- · Areas exposed to excessive vibration
- · Areas exposed to excessive smoke, dust or dirt

▲ CAUTION To ensure a longer service life:

- Use this unit only for measuring items for which it was designed. Do not use it for any purpose other than for which it was designed.
- Condensation may occur inside the case when a unit is moved from one environment to another where there is a great difference in temperature.
- Do not drop or expose the unit to a strong impact. If that happens to the unit, immediately disconnect the cables from the unit, remove batteries, and stop using
- When connecting the unit to your PC, make sure to follow all warnings and directions from your computer manufacturer.
- Do not insert any foreign objects into any of the units' jacks.
- Clean the product gently using a cloth dampened with a neutral detergent diluted in water. Do not use alkaline cleaners.
- Make sure to remove dust and dirt from plugs of the AC adaptor and/or any cables.

▲ CAUTION Notices about Infrared Communication Devices

- Do not place the unit in areas exposed to direct sunlight, directly under incandescent lights or inverter type fluorescent lights, or near other infrared devices. It may cause communication to not work properly.
- Battery life may be shortened if the unit is used under inverter type fluorescent lighting
- Proper communication may not be possible if the infrared port becomes covered with dirt and/or dust. If it gets dirty, wipe it with a soft cloth.
- Do not touch the infrared port with your finger during infrared communication.

▲ CAUTION Notices about Sensors

- Make sure to use sensors within the measurement range indicated in the specifications for that sensor.
- Specifications for the sensor and more information can be found in the Getting Started Guide included in the package.

Disclaimers

In order to properly use this product, please carefully read all documents that accompany the product before using.
